TROOPS ON THE ROAD TOWARD BULL HILL.

MILITIA HASTENING TOWARD THE SCENE OF TROUBLE

There Will Be No Battle Until They Come But Deputies Will Follow the Troops Into the Strikers Fortifications and Serve Two Hundred Warrants.

DIVIDE, Col., June 7.—The state troops left this morning for Midland, and from there will march to Bull Hill.

CRIPPLE CREEK, Colo., June 7.—There will be no battle between the fortified union mines on Bull Hill and the army of 1,000 deputy sheriffs who are now encamped on Beaver creek, less than five miles away, unless a treacherous move is made. The miners were willing to submit to the militia, but declared they would never be arrested until the troops arrived. Alexander McIntosh, representing the miners, announced that they would lay down their arms immediately on the arrival of the state troops. The deputies will follow the troops to the miners' camp and serve warrants which they are said to hold for 200 strikers.

DENVER, Colo., June 7.—Gov. Waite says that the movement of the deputy sheriffs against Bull Hill to arrest strikers is in violation of an armistice. While nothing is said on this point in the agreement made by him in behalf of the miners with the mine-owners, it was tactitly understood that no attempt should be made to serve any warrants until after the militia had reached Cripple Creek and the mines been reopened.

COLORADO SPRINGS, Colo., June 7.—The First regiment of the National guard is stranded here. Owing to the railroad washouts the men can not reach Cripple Creek. It would take them nearly a week overland.

MONTROSE, Colo., June 7.—The fifty-five armed miners who seized a train at Rico Monday to go to assist the strikers at Cripple Creek and were stranded here by the abandonment of the train by the railroad company captured the east-bound train last night and held it by force until after 11 o'clock. Most of them finally got off the cars.

SAY ALL MUST AGREE.

Miners' District Presidents Go Home to Call Conferences.

COLUMBUS, Ohio, June 7.—The members of the executive board of the United Mine Workers went home yesterday with the hardest task before them of their lives. A half dozen were interviewed and they united in the belief that nothing would come of the district conferences for two reasons—the miners will be satisfied with nothing but an advanced scale and the operators will not attend in any numbers. While the negotiations authorized are on a strict basis, yet they are intended nevertheless to be uniform and national instead of local. The miners in the various districts will not be authorized to resume work until all the territory affected by their labor is included in the settlement. The miners claim that if this is not the case the settlement will be a failure.

MASSILLON, Ohio, June 7,—The action of the National Executive board and district presidents of the United Mine Workers gives dissatisfaction here to mine owners and the miners themselves, as it seems to end the hope of a 70-cent rate for Ohio. The 3,000 miners of the Massillon district want the 70-cent rate re-established on general grounds, and the operators were equally favorable. Whatever the Columbus decision may seem to mean to the country at large, it points to the indefinite continuation of the Massillon strike.

MILLS CLOSED FOR WANT OF FUEL.

Failure to Secure Coal Causes Stoppage of Factories and Steamships.

CLEVELAND, Ohio, June 7.—The big rolling mills at Newburg were compelled to close down yesterday for want of fuel. It is estimated that between 3,000 and 4,000 men are idle. The passenger steamer City of Cleveland of the Detroit and Cleveland line was laid up owing to the coal famine. The various railways leading into the city are reducing the number of trains to the lowest possible limit.

TOLEDO, Ohio, June 7.—The Ohio Central closed its shops at Bucyrus yesterday, throwing 200 men out of employment because of the coal famine.

Milwaukee, Wis., June 7.—The owners of the lumber carrying steamers are asking permission of the underwriters to burn slabs for fuel on account of the scarcity of coal. Many permits have been granted.

OHIO TROOPS CALLED OUT.

Strikers Stop Trains Because One Bearing Coal Passes by Them.

CAMBRIDGE, Ohio, June 7.—The situation here is serious. The miners are determined that no more coal shall pass, no matter what must be resorted to in order to prevent it. One coal train slipped through by running on a passenger train's schedule. When the passenger train followed the miners flagged it. They were mad over being fooled by the engineer of the coal train. The passenger train got through, but it received a volley of stones. All the windows were broken. The passengers, however, had been forewarned and were not hurt. The mob then became so desperate as to alarm all citizens and Sheriff Mason asked Gov. McKinley to send troops immediately.

COLUMBUS, Ohio, June 7.—The order for troops came to Gov. McKinley at a late hour last night for help in eastern Ohio. The governor at once issued orders for troops. The entire number of troops called out aggregated in the neighborhood of 1,500 men.

PHILADELPHIA, Pa., June 7.—A circumstantial statement is made here that Gov. McKinley of Ohio had written President Kimball of the Norfolk & Western railway company protesting against that line's shipment of non-union Virginia bituminous coal into or through Ohio during the strike. The same report has it that President Kimball promptly replied that the Norfolk & Western would continue its inter-state traffic and should look for ample protection of its property in Ohio. The miners have represented to the governor that they must have the traffic stopped.

Against United States Law.

DENVER, Col., June 7.—One of the grievances of the striking coal miners in Colorado has been the issuance of script which they have been forced to accept and use at the company's stores. Gov. Waite claims that this is a violation of the United States law. The attempt to induce the miners in the northern part of the state to strike from sympathy has failed.

Ask that Militia Be Withdrawn.

CARTERVILLE, Ill., June 7.—The people of this city have sent a communication to Gov. Altgeld asking that the militia be withdrawn and guaranteeing protection from the civil authorities to all miners desiring to work. It is likely the troops will be removed.

Calls an Illinois Conference.

SPRINGFIELD, Ill., June 7.—In accordance with instructions received from State President Crawford of the United Mine Workers, Secretary Guyman issued a call addressed to the coal operators of respective districts Nos. 3, 4 and 5 of Illinois, reading as follows:

"There will be a joint conference of miners and operators in Flannigan's hall, East St. Louis, Saturday, June 9, 1894, at 10 o'clock a. m. for the purpose of again trying to formulate a basis for a general settlement of the present controversy."

This invitation is extended to all the operators of the central and southern Illinois fields.

Two Miners Shot.

HUNTINGTON, W. Va., June 7, 2 a. m.—Fighting is in progress on the Ohio side at Kenova bridge, the Norfolk & Western railroad structure, guarded for several days by a large force of deputies. Two men have been killed and four wounded. The guards on the bridge were compelled to shoot into a crowd of men who approached suspiciously from the Ohio side. The Portsmouth, Ohio, company of militia reached there at 3 o'clock.

Ohio Nominations.

COLUMBUS, Ohio, June 7.—Republican nominations made are: Secretary of state, S. M. Taylor; Supreme judge, John A. Shanck; board of public works, C. E. Groce; school commissioner, O. T. Carson. The silver plank of the platform reads as follows: "We favor bimetallism. Silver as well as gold is one of the great products of the United States. Its coinage and use as a circulating medium should be steadily maintained and constantly encouraged by the national government; and we advocate such a policy as will, by discriminating legislation or otherwise, most speedily restore to silver its rightful place as a money metal."

Inferences from the speeches are to the effect that Foraker is the favorite for United States senator and McKinley for President.

Attempt to Mob an Editor.

LOGANSPORT, Ind., June 7.—Royal Center has a sensation in an attempt to white-cap Dr. John R. Burton, editor of the Royal Center Record. Burton barely escaped the mob and has filed an affidavit charging George Conn, the town marshal, with being the ring-leader in the affair. Conn has been arrested.

Democratic Editors Organize.

WARRENSBURG, Mo., June 7.—The meeting of the democratic editors, called for the purpose of organizing a democratic state press association, is attended by quite a number of leading representative editors of the state. Gov. Stone is present and spoke at some length.

Puts a Bullet Through His Head.

AURORA, Ill., June 7.—James Collins, aged 35, son of Capt. Collins, a prominent citizen, committed suicide in front of the new gouernment building here to-day by shooting himself through the right temple. The cause is attributed to despondency. He was unmarried.

To Indict Cashier Thompson.

SEDALIA, Mo., June 7.—John R. Walker, United States attorney, says he will take immediate steps toward the indictment of J. C. Thompson, the absconding cashier of the First National bank.

Wormer is a $4,000 Defaulter.

CONCORD, N. H., June 7.—Managers of the Page Belting company of this city state that a careful examination of the books shows that the shortage of Manager Wormer of the Chicago office will reach nearly $4,000. The defalcation was discovered two weeks ago, but Warmer claimed that it was small and agreed to make it good. He has now disappeared and is believed to be in Canada.

STATE CONVENTION CALLED FOR JUNE 5.

ROCK IS GIVEN TWELVE DELEGATES.

Only Two Other Counties in the State Receive More, They Being Milwaukee and Dane—How the Apportionment Splits Up the Ten Congressional Districts.

MILWAUKEE, June 7—Republicans of the state will meet in state convention here July 25.

The list of delegates that each district will be entitled to is as follows: First, 11; second, 30; third, 39; fourth 37; fifth, 32; sixth, 36; seventh, 30; eighth, 31; ninth, 32; tenth 37, making the total number 345. The call reads as follows:

HEADQUARTERS REPUBLICAN STATE CENTRAL COMMITTEE. MILWAUKEE, WIS., JUNE 4, 1894.—A delegate convention of the republican party of the state of Wisconsin will be held at the Academy of Music, in the city of Milwaukee, the 25th day of July, 1894, at 12 o'clock noon, for the purpose of nominating a state ticket to be voted for at the November election, and to transact such other business as may properly come before the convention. The several counties in the state are entitled to one delegate for every five hundred votes or major part thereof cast for Harrison and Reed at the presidential election of 1892. The representation to which the several counties are entitled is as follows:

Adams	2	Manitowoc	5
Ashland	3	Marathon	4
Barron	4	Marinette	4
Bayfield	3	Marquette	2
Brown	6	Milwaukee	49
Buffalo	3	Monroe	5

The chairmen of the several county committees are requested to see that conventions are called to elect delegates in accordance with the foregoing. As the state central committee acts as the committee on credentials, it is requested that credentials of delegates elected be forwarded to the secretary of the state central committee at the earliest possible date.

H. C. THOM, Chairman. H. H. RAND, Secretary.

CHINESE EVADE THE LAW.

Scores of New-Comers Effect Entry Under Midwinter Fair Act.

SAN FRANCISCO, Cal., June 7.—The craft and cunning of the Chinese in this city have once more circumvented the federal authorities and the exclusion laws, and as a result of the privileges extended to them by congress in connection with the midwinter fair the celestial population in the country has been swelled by the addition of another shipload of laborers, who have had six months in which to scatter and conceal themselves.

Special Agent Phoenix, acting under instructions from the treasury department, visited the Chinese village last week and discovered that out of 257 Chinese originally landed all but twenty-seven had left the village, and there is little doubt that each of the 220 laborers is now safely registered, with years of residence in the United States backed up by a score of witnesses. The innocent-looking resolution put something like $50,000 into the pockets of the Chinese manipulating the scheme.

BIG BOOM IN SUGAR.

Wall Street Brokers Neglect All Other Securities.

NEW YORK, June 7.—That Wall street is pleased at the action of the United States senate in giving the sugar trust what it wanted in the way of a tariff schedule was manifest yesterday morning when the stock exchange opened.

The stock sold simultaneously all the way from 107 to 108, against 106¾ last night. Then came a flood of offerings which carried the quotation back to 107¼, but the pool had placed big buying orders on the recessions, and a rise to 108¼ occurred. The trading in sugar during the first hour was 55,000 shares. Bidding for the stock was so spirited that transactions were recorded on margins as wide as 1½ per cent within a few seconds.

LADAS WINS THE RACE.

Captures the English Derby, Completing Lord Rosebery's Prophecy.

LONDON, June 7.—Lord Rosebery's bay colt, Ladas, won the Derby. Watts had the mount and carried the prime minister's silk through in magnificent style. Ladas is a direct descendant of Whalebone, who won the Derby for another prime minister, the duke of Grafton, eighty-four years ago. The result of the race is made doubly interesting by reason of its having completed the three-cornered prophecy of Lord Rosebery. Years ago he said he would marry the richest heiress of her time, that he would become prime minister, and that one of his horses would win England's classic event. Matchbox ran second to the winner, Reindeer finishing a close third.

FIRED ON SOLDIERS AND A FIGHT BEGAN.

STRIKERS AT FARMSBURG ATTACK THE MILITIA.

Bloody Battle Reported—Engineer on the Vandalia Line Killed by Stones Pennsylvania Rioters Destroy Much Property—Fatal Riot in Illinois Near Wesley City.

INDIANAPOLIS, Ind., June 7.—2:30 p. m.—The miners have attacked the militia at Farmersburg, in Sullivan county, and at this hour there is a battle raging. Several of the militia are reported wounded, but how seriously can not be learned. Adjt. Parks has wired that his pickets were surprised at 1 a. m. by a body of miners who slipped up under cover of darkness and opened fire without warning. The outposts returned the fire and retreated on the camp, where they rallied, and a charge was made on the assaulting party. The number of miners could not be learned. The first volley is said to have been at least fifty shots along the line. Word was sent to Shelburn and two companies are now marching to reinforce the attacked militia under Col. John W. Ebel of Terre Haute. The troops in the fight are of company B from Terre Haute.

INDIANAPOLIS, Ind., June 7.—Gov. Matthews determined on declaring martial law in Sullivan county to-day unless the situation there should show that the local authorities are able to handle the rioting miners at Shelburn, Farmersburg and Alum Cave. He was most incensed at Judge Briggs in Sullivan county, who has issued scores of warrants, but has not seen that they were served on the rioters. Gov. Matthews says there are 500 troops at Shelburn, and he has thirty companies in reserve, which he will send there if necessary to quell the outbreak and restore order.

WAR RAGES IN ILLINOIS

Battle Near Wesley City Ends Fatally—One Killed and Several Hurt.

PEORIA, Ill., June 7.—Strikers to the number of several hundred yesterday charged the mine of E. Little & Co., a short distance from Wesley City, drove the workingmen away with loss of life and limb, and completely destroyed the plant. The trouble which culminated in the tragedy has been anticipated for a long time, and the proprietors of the mine charge Sheriff Herman Frederick of Tazewell county with being responsible for it and will endeavor to make Tazewell county pay the damages. The casualties include the following:

BLOWER, EDWARD, striker, dead.

The injured are:

LITTLE, JAMES, shot through the shoulder and will die.

DICKSON, WILLIAM, colored, shot in breast and will die.

LITTLE, PETER, shot in eye, not seriously, though the sight of the eye is destroyed.

LITTLE, EDWARD, the manager.

LITTLE, PETER, JR.

ROCKEY, CHARLES.

UNKNOWN STRIKERS, seen to fall, but carried away.

Sheriff Frederick with thirty unarmed deputies tried to stop the mob, but his appeal went unheeded. The men rushed by him and hastened to the mine. They stated that they had been there before, but this time they had come for business and were going to stop the men, no matter what the cost to themselves or the men at work. The sheriff says they were screaming like wild beasts and no resistance was offered them. As soon as they came in sight of the tower of the mine they seemed to lose all self-control.

Without waiting for parley of any sort they opened fire on the men they saw in the tower. The fire was returned and volley after volley was exchanged. The men in the tower fought manfully against great odds, and were finally compelled to surrender. They are all hurt more or less and it is thought some will die.

Having most effectually routed the miners the strikers next turned their attention to the property of the company. A large can of kerosene was found and this was quickly removed to the shaft. The strikers secured tin cans and cups and thoroughly drenched the buildings and then touched a match. The fire burned fast and in a short time there was nothing left except a heap of ruins. The mine had only recently been completely equipped with new machinery and Mr. Little estimates that his total loss will figure up at least $30,000, for which amount he will probably sue Tazewell county unless the claim is adjusted without resource to law.

Sheriff Frederick is on the ground. He was seen late and denied that his deputies had run when they saw the strikers. He stated that, unarmed as they were, they could offer no resistance to such a strong force. They did the best they could, but were forced to surrender. Coroner Powell arrived here from Pekin on a special train and took charge of the body of Blower. He was an employe of a brickyard and accompanied the strikers who crossed the river in skiffs out of idle curiosity. He was apparently shot from the rear, and it was supposed a wild shot did the work. The inquest will be held at Pekin this morning, and more than a hundred persons have been subpœnaed. It is the intention to discover the leaders of the strikers and indict them for murder.

There are rumors that the strikers will return to the mine to-night and destroy the numerous dwellings occupied by the men and there is the wildest excitement. Many of the residents have come to this city and there are not enough on the ground to offer any resistance.

ENGINEER KILLED BY STRIKERS

Mob Near Brazil Stones a Vandalia Coal Train—Pursuit by Officers.

BRAZIL, Ind., June 7.—William Barr, engineer of freight train No. 1 extra, west bound on the Vandalia road, was killed at 2 o'clock yesterday afternoon by being hit on the back of the head by a large stone thrown from a mob of miners. Conductor W. J. Harshman was badly hurt and one brakeman was slightly injured, being hit by a rock. One hundred strikers endeavored to stop a preceding freight train which was carrying coal, but finding they could not accomplish their desire, stoned it, breaking out the glass in the engine and caboose. The trainmen escaped unhurt, however. The crowd was augmented and more determined by the time the train came along, engineered by Barr, and it was treated to a fusilade of rocks, which resulted in the murder. The deed was committed three miles east of this city, and the dead man was brought here and later the remains were shipped to his home in Terre Haute after an inquest had been held. Officers are in hot pursuit after the supposed murderers. In the morning a crowd of strikers numbering several hundred stopped the mixed train south on the Evansville & Terre Haute road, which carries freight and passengers between this place and Clay City. The train was hauling several loads of coal and also carrying the United States mail. The miners were informed that they were obstructing the United States mail, but this failed to intimidate them, and they were held until the coal was sidetracked.

SOLDIERS GUARD COAL TRAINS.

They Are Thus Safely Run Through Shelburn—One Striker Under Arrest.

TERRE HAUTE, Ind., June 7.—A coal train was brought north past Shelburn yesterday under escort of a company of militiamen. The Evansville & Terre Haute railroad is being guarded by soldiers for a distance of several miles through the dangerous locality. The new regime in the sheriff's office is not doing much better than did Sheriff Mills, who is deposed. Judge Briggs and Gen. McKee held a conference in regard to the reported invasion of the county by miners from Linton, in Greene county, and it was decided to have martial law declared if outside miners come into the county.

SULLIVAN, Ind., June 7.—One of the strikers, John Bullock, was arrested on a warrant by Sheriff Mills. United States Marshal Hawkins was notified that miners had held up a train at Coal City, which had four cars of coal, and was carrying United States mail. It will be his duty to give that matter his attention.

WASHINGTON, Ind., June 7.—Fifty miners stopped a freight train on the Evansville and Indianapolis road yesterday afternoon and compelled the crew to sidetrack a car of coal bound for Terre Haute. They were peaceably but determined and now have the car surrounded by a strong guard.

CLAY CITY, Ind., June 7.—It is rumored that several companies of militia are marching from Shelburn to this point. Excitement is increasing and there is general belief that there will be bloodshed.

STRIKERS DESTROY PROPERTY.

Burn Tipples, Pour Out Metal and Drive Away Workmen.

MCKEESPORT, Pa., June 7.—Thirty thousand dollars' worth of property was destroyed and at least 1,500 workmen are idle as the result of the strike of the National Tube company's employes at McKeesport. The property losses include the burning of five coal tipples which the strikers claimed were supplying coal to the tube works. Several men were hurt during the day by strikers, and the owner of one coal pit narrowly escaped lynching. Nearly every mill for miles on both sides of McKeesport is idle. The owners fear the plants will be wrecked by the mobs that are continually marching past them, and have closed them down. A mob of 700 strikers and seventy deputies guarding coal mines above McKeesport are expected to come together soon. Six cars of slack were burned while in the Pittsburg & Lake Erie yards because the strikers thought they were intended for the tube works, while in reality they were for shipment. A striker named Lauterbach, who was injured Tuesday, died at the hospital last night.

Capt. McIntyre narrowly escaped lynching at the hands of the mob which destroyed the Portvue tipples. The captain tried to check the progress of the mob at the point of a revolver, but the mob made a rush for him, and would have lynched him if it had not been for some friends who rescued him from the infuriated strikers.

When the mob reached Duquesne it had increased to 6,000 strikers and sympathizers. With yells they attacked the Duquesne tube works, drove all the men at work out of the plant, drew the fires, and ran the hot metal from the furnaces on the floors. The reason the strikers give for their actions is that the works were using black sheep coal. The assault was witnessed by thousands of spectators thronging the summits of surrounding hills. As the strikers left the mill one of them threw a plank in front of an approaching freight train, nearly derailing it.

RECORD OF WRECKS LED BY NEW YORK.

COLLISION REPORTED NEAR ST. GEORGE TODAY.

Several Lives Said to Have Been Lost—Explosion of a Gasoline Stove in Kansas City Results in the Death of Two Servant Girls After Great Suffering.

ST. GEORGE, N. Y., June 7—It is reported that a collision occurred on Alexandria Bay to day. It is said that several lives were lost.

KANSAS CITY, Mo., June 7.—A gasoline stove exploded in Adam Long's house, 1526 Central street, last night and two servants, Mary Glynn and Nora Keivel, were frightfully burned. Mary Glynn died shortly afterward and the other girl died this morning.

BANK TAX NOT REPEALED

The Tobacco Schedule Debated in the Senate—Agricultural Products.

WASHINGTON, June 7.—The house has sat down on the various propositions to repeal the law taxing the circulation of state banks. The first vote was on Mr. Cox's amendment for the absolute control of the tax, and it was defeated by a vote of 102 yeas to 170 nays. The Chicago members voted nay. The house then voted on the banking and currency committee's substitute for the original Brawley bill, which provided for the exemption of the tax on treasury notes issued during the panic. The vote was viva voice and the substitute was defeated by a big majority. So was the Brawley bill, and then the house took up the Indian appropriation bill. A fillibuster was started as a result of Mr. Holman's request that the first reading of the bill be dispensed with, Ray of New York objecting. A motion to adjourn was adopted—104 to 98 and at 3:23 the house adjourned.

TOBACCO IN THE SENATE.

Senator Jones' Amendment to the Schedule Adopted.

WASHINGTON, June 7.—When the senate took up consideration of the tariff bill yesterday Mr. Jones asked leave to withdraw the compromise amendment of the tobacco schedule, which made the rate on leaf tobacco and unstemmed $1.50 and $2.25 respectively and restore the house amendment, in which the rates are $1 and $1.25 respectively. The move was a surprise to senators on both sides, as by agreement the compromise paragraph was adopted pro forma, with the understanding that the subject shall be considered later. The other Jones amendments to the tobacco schedule were then adopted, and the senate passed to the schedule of "agricultural products and provisions."

All live animals not specially provided for were made dutiable by the bill at 20 per cent.

Mr. Hale (Maine) proposed to restore the McKinley rates; horses and mules, $30 per head; cattle, $10 per head; hogs, $1.50; sheep, $1.50. Other animals 20 per cent ad valorem. Mr. Peffer proposed an amendment to exempt from the operation of the duty ponies, chiefly imported from Mexico.

Mr. Dolph then proceeded to deliver the last installment of his prepared speech begun some two months ago. He spoke against the agricultural schedule of the bill. The debate was continued in a desultory manner by Messrs. Gallinger, Allison, Mills, White and Kyle. A long discussion was precipitated by Mr. Mills and consumed most of the remainder of the afternoon. It was participated in by Messrs. Hoar, Gray, Hawley, Platt and Teller.

Mr. Pfeffer withdrew his amendment, and the vote was then taken on Mr. Hale's amendment to restore the McKinley duty of $30 per head on horses and mules. It was defeated by a strict party vote—23 to 30—Mr. Pfeffer voting in favor, and Messrs. Allen and Kyle against it.

Mr. Hale offered another amendment to substitute $20 for the 20 per cent rate in the bill, and this being defeated he offered the whole live stock schedule of the McKinley law. The latter amendment met with a similar fate.

After some more debate a move to go into executive session was made. A call of the senate followed and showed the presence of forty-five senators, more than a quorum, and the vote again reeurred on Mr. Aldrich's motion. Again the quorum disappeared and thereupon Mr. Harris yielded to the inevitable and at 7 o'clock the senate adjourned.

WILL PASS THE HOUSE.

Senate Sugar Amendment Likely to Be Agreed To.

WASHINGTON, June 7.—Many of the democrats of the house are asserting in a most positive manner that the sugar amendment which was adopted by the senate will never be opproved at the other end of the capitol, and point to the fact that the largest vote that was cast in favor of any amendment to the tariff bill while it was under consideration in the house was in favor of putting sugar on the free list. While there is no doubt the sugar schedule will be the great obstacle in the way of an agreement between the two houses on the amendments to the tariff bill,

STEAMERS EMPTIED BY GROVER'S REIGN

JANESVILLE AGENTS WAIL OVER POOR BUSINESS.

No Emigrants Leave the Old Country While Democratic Times Prevail in America—The Only Ships That Now Are Full Are Those Bound East.

"The hinges of Castle Garden gates are rusting," say the Janesville steamship agents.

Workmen are not coming to America this year. Those who have felt the rigors of "good old democratic times" are advising friends in the old country to stay home. The people thus kept back are not the idle, thriftless and violent. The skilled workman who can make fair wages in the old country is the man who refuses to take chances in such times. He is the man America needs, the man she will not get as long as democrats are in power, for a law that makes foreign factories prosper makes America a good country to stay away from.

"I talked with many steamshi agents in Scotland while I was over there," said William Paul, "and they all told me that hardly a ticket fo America was being sold. Ships from America to the old country, however, are crowded. Workmen think that they will be better in their old homes."

Workmen on their way back to Europe buy their tickets in New York. When they are buying tickets to send over to friends, however, they usually patronize the local agent. This business furnishes the largest part of the local agents' commissions, and it is now wholly shut off. Hence Janesville men weep.

Big Steam Ship For Sale.

"The sale of tickets at this time was never smaller," said Mr. Peterson, of Trulson & Peterson, who represent the Cunard line. "One of our ships, I see, is advertised for sale in Liverpool, and perhaps will not make another voyage. There are a good many people going back to the old country, but very few coming this way. I know of a number of country people who will go back to the other side this summer. The hard times in America has stopped immigration. People over there can do better at home during these hard times than they can here, and they have been so advised."

Harry Moeser of Pfennig & Moeser, representing the Red Star liners, talked the same way, and added that the great bulk of travel is outward bound.

"Many Norwegians, Swedes and North Germans are going back" he said.

"These people can go back to the old country and tide over the hard times and return, saving money by the trip. Many of the emigrants from these countries are born workers, mostly farm hands, and go right to work on arriving. They have been informed that there is no farm work here, and have concluded to postpone coming."

Commissions Very Light

Frank Haselton represents a number of lines, but says with the exception of one Janesville lawyer and one well-to-do German family he knows of no ticket sales this season. The attorney and German family expect to go abroad this summer, but they are not certain. No one is coming over. Emigration is almost stopped.

Other ticket agents report the same. Formerly local agents received good commissions on their sales of tickets, people here buying and sending tickets over the water for relatives. There is nothing doing in this line now.

Recently an expert sugar refiner came over to this country, his ticket being purchased through the agency of Pfenig & Moeser. He expected to find ready employment here but was disappointed, and at once returned, only remaining six days. "I can do better at home," he said and returned.

LEFT TICKETS IN JANESVILLE

Rockford High School Boys Had a Run Of Hard Luck.

Besides being drubbed to the tune of 36 to 13 in Madison the Rockford High School nine had to pay double fare from Janesville home. All went well until the boys struck this city. Thinking the train would stop several minutes Henry Blake, Charley Golden and Will Haime got off and went over to the nearest water fountain to get a drink. They had just quenched their thirst when to their chagrin the engine began to puff and the train moved off, Blake, who is a good sprinter, got a two-minute gait on himself and managed to catch the last coach, but Haime and Golden were left to see the glories of the Bower City.

But that wasn't the worst of it. When the conductor came around and cried "tickets," it dawned on the remaining thirteen that Golden had the excursion ticket for the extire party of fifteen. They explained to the ticket puncher, but he was obstinate, and said that was no fault of his, and he demanded their fares. Then the boys were truly in a dilemma. There wasn't but fifty-four cents in the crowd, and the conductor refused to take this, and moreover threatened to put ever last one of them off at the next stopping place, which was only a cow path about seven miles from nowhere. This they knew would never do as they had to be home to attend divine service Sunday and they disliked the idea of counting ties and begging food to sustain their tired bodies for the long tramp.

That something must be done immediately if not sooner was very evident to all. Just as they had about given up in dispair a Rockford professional gentlemen whom several of the boys knew came into the car from the smoker and agreed to lend them money, taking a mortgage on their future receipts as security.

BIGGEST AND BEST SHOW ON EARTH

Sells Brothers' Great Three Ring Circus and Mammoth Menagerie

Will exhibit in Janesville Saturday, June 9. Coming in all its entirety like a mighty avalanche sweeping everything before it. As the price of admission has been reduced from fifty to twenty-five cents, now everybody can go to the largest, oldest, richest and best tented exhibition on earth, Sells Brothers' Enormous United Shows. Three big circuses in three separate rings, fifty-cage menagerie, huge elevated stages, gladiatorial combats, royal Roman hippodrome gala-day sports, Australian aviary, African aquarium, Arabian caravan, spectacular pageants and Trans-Pacific wild beast exhibit, matchless in the mighty majesty of its magnificence. All other shows positively outclassed. The great show of the world. After witnessing the sublime and overwhelming deluge of delights the public will be satisfied, because there is positively nothing else left in the realm of amusements that possesses any merit whatever. Remember day and date, and last but not least the price—twenty-five cents for everybody. Magnificent and bewildering street parade at 10 a. m, on the day of the exhibition. Special excursion rates on all lines of travel.

PIANO VOTES THICK OUT IN THE COUNTY.

OUT-OF-TOWN CONTESTANTS DO LIVELY WORK.

Time Is Growing Short and on June 30 Some Fortunate Young Lady Will Receive From The Gazette as Fine a Piano as Can Be Bought in the City.

As the end of the piano contest draws near interest grows intense. There has been surprise in the last few days over the gain made by candidates outside of the city. Milton, Afton, Clinton and Edgerton each have contestants enrolled and several townships are also represented. Throughout the county vigorous canvassing for votes is being done.

All question as to the quality of The Gazette prize has died out. The first Shaw pianos were placed on the market less than five years ago. Instantly the trade recognized their merits and put in bids for territory until at this time these instruments can be seen almost everywhere. S. C. Burnham & Co. of this city have for years been representing other first-class pianos but have been won by the construction, tone and quality of this new aspirant for honors so today they are bending all their energies in favor of the Matchless Shaw as it is termed. With no remorse of conscience they claim it is the finest piano they have ever represented.

With such a piano as a prize is it any wonder that the contest now going on is attracting universal attention? The candidates and the terms of the offer are as follows:

Ainslie, Tina
Baker, Bessie
Baldwin, L. M.
Campbell, Nellie Ruth
Clifford, Alice M.
Eldredge, Rose B.
Ennis, Mary
Frink, May
Foster, Lahlie
Gifford, Alice V.
Gibbs, Maria J.
Holt, Ellen
Hugett, Miss Olive
Hayward, Minnie
Kenyon, Cora
Kastner, Alice
Loucks, Franc
McCartey, Maggie
Nichols, Ida
Peters, Nellie
Pease, Bashie K.
Randall, Carrie M.
Wright, Ada V.

1. Any one, anywhere in any state is entitled to vote as often as they can buy a copy of The Janesville Gazette containing the coupon.

2. The lady who receives the largest number of votes will receive as good and beautiful a piano as the Shaw Piano company can make.

3. The contest will close June 30, at 9 p. m. Piano will be delivered as soon as the counting of votes is completed.

4. Any person who will bring the Gazette one new subscriber paid in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

CARRIE NEIBLING, a girl living near Menasha, had a splinter over an inch long removed from the corner of her eye, where it had remained over a year.

Several Reasons.

There are several reasons why we are today doing the largest shoe trade done by any house in Rock county.

First—We have always insisted on handling none but the very best goods, believing that poor goods are never cheap.

Second—High prices and long profits have long been strangers to us. We are continually handing out superior goods at prices no higher than you are asked to pay for inferior goods.

Third—In all of our advertisements we have held rigidly to facts. Have never endeavored to mislead the people by misrepresentation.

Fourth—We carry the largest and most carefully selected stock, not dealing in job lots and tag ends from "Cheap John" jobbing houses.

Fifth—We are foot-fitting, comfort-giving shoemen. To the above stated facts we attribute our wonderful success. It is very gratifying to us to know that our efforts are appreciated.

BECKER & WOODRUFF on the bridge.

Seeing Is Believing.

Because times are close and people are not spending as much money as they used to is no sign that ladies are less hard to please, Nay! nay! Every man in the business knows better. Also that some kind of ladies shoes sell much easier, look and fit better than others. If you don't know it we want you to take the trouble to verify our statement, that our line of fine shoes in genuine handturned product in patent leather trimmed and cloth top at $3.50 is fully equal to what you have paid $4 and $5 for. Seeing is knowing and you know when you see a good pair of shoes. We want your trade. Brown Bros. & Lincoln.

NEW DOLLARS BOGUS THOUGH ALL SILVER.

DANGEROUS COUNTERFEITS AFLOAT IN THIS CITY.

Bankers Run Across Coins That Are of Pure Silver But Are Molded Instead of Stamped—All Right In Weight But Dull In Appearance.

A new counterfeit silver dollar is now in general circulation, and hundreds of the coins are floated in Janesville. The new counterfeit is a very clever piece of work, and one an expert has a hard time to detect. It is of exact weight of the genuine, is pure silver, and therefore is not worthless, yet not a legal coin. The counterfeit is molded instead of being stamped and milled, and has a duller appearance than the genuine. The counterfeits are undoubtedly made in the west, by parties possessing an abundance of silver bullion.

The coins generally bear the date of "1886."

"There are thousands of dollars of these bogus coins in circulation," said one of our local bank officials this morning. "People take and pass them innocently. In fact an ordinary person, not in the habit of examining coins, cannot tell the counterfeit from the genuine. They are molded, pure silver being used: There are other counterfeit dollar coins, but none so cleverly made as this one which has just been discovered. The others are easily detected, as the metal is poor, and light, compared with the genuine."

LOST TWO CUSTOMERS.

And Yet the Clerks Were Not to Blame for Either of Them.

"It was a rainy day," said the bookseller, "and the wet shoes and dripping umbrellas of customers had made the floor quite wet and slippery just inside the store door. All our clerks happened to be in the back part of the place when the door opened and a large and very stout lady hurried in. Just as the door swung shut behind her she slipped and fell flat upon the floor.

"Before any of us could reach her she picked herself up with surprising quickness for a woman of her size, gave a stony stare all around the room, and then, without uttering a word. turned around, opened the door and walked out in the most dignified manner.

"None of us has ever seen the woman since, and I suppose her pride will prevent her from ever coming into the store where her first appearance was so mortifying.

"It was only a day or two after that," the salesman continued, "when we lost another customer. A lady who had bought a book from us a week or so before came in and asked to exchange the volume for another one she thought she would rather have.

"I explained to her that it was our rule never to exchange books, and though I talked as politely as I could I could see she was getting angry every second. She was indignant, and didn't hesitate to say so, and she had begun to make me rather nervous when, in the midst of what was really a regular tirade, she snapped out:

"'I suppose your rules are as unchangeable as the laws of the Pedes and Mersians—I mean the Perds and Mesians — or — I mean—the Merds and—'

"And then she stopped, took a long breath, made a break for the door and disappeared, and we have not yet exchanged that book."

Drinking Fresh Blood.

The Roothermic institute in Rome is a "cure" place where people go to drink fresh blood for the cure of gout, rheumatism and the great prostration and anæmia caused by the malarial fevers of the Tontine marshes. The blood to be imbibed is first rapidly freed from fibrin by a carefully aseptic method, the animals from which it is derived having previously undergone inspection by a veterinary surgeon. Some patients bathe either a part or the whole of the body in the warm blood and, Italian doctors think, with great benefit.

ARE EMPERORS TO BE IN DAYS TO OME.

NICHOLAS OF RUSSIA AND GEORGE OF WALES.

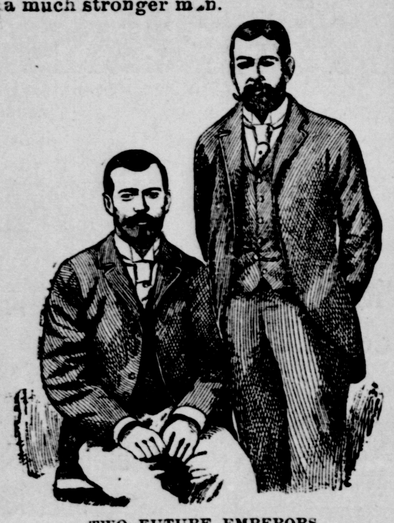

A Love Affair, Which, if It Results in Marriage, Will Stay the European War Many Years—A Move on the Royal Chess Board.

"ALL THE WORLD," says Emerson, "loves a lover," and that is possibly the reason why, when the match-makers of royal birth, hedged about by the traditional limitations of their class, and compelled to take thought of political considerations as well, have finally brought about a marriage scheme between a couple of their charges, they straightway set "inspired" tongues and pens wagging with stories of the genuine affection of the lad and the lass in question for each other. And the good-natured world, still finding royalty amusing and romantic, and touched with the charm of remoteness, believes the stories with a zest that by all means implies conviction. It is reported with more than usual persistency that when the young Grand Duke Nicholas Alexandrovitch, eldest son and heir of the Emperor Alexander III. of Russia, was promised in marriage to the Princess Alixe of Hesse, granddaughter of Victoria, queen of England and empress of India, and cousin to the emperor of Germany, it was the happy crowning of genuine love on both sides. It is open to suspicion, however, that the high matchmakers in this case did protest too much.

The Princess Alixe is a young woman of more than usual wit and grace and intelligence, and a great favorite with her venerable and accomplished grandmother. When the latter, with all her native liking and acquired capacity for making matches, set about finding a husband for her favorite granddaughter she finally selected by all odds the most brilliant parti within sight—the heir to the Russian throne. And when she found an ally in the enterprise in the person of the emperor of Germany, success was assured, and the feelings of the young people, though they may have been lively in one direction or the other, need not be considered as having counted. The rulers of the three greatest and most powerful nations of the globe had set out to couple them, and coupled they were bound to be. If they had really been only awaiting an opportunity to rush into each other's arms, we suspect that the fact would not have been heralded so loudly. It would have been apparent enough of itself.

The czarevitch, whose portrait we give, apart from his "prospects" would not be likely to strike any maiden's heart with the lightning of love. He is simply a young man of 26 years of age, of no known gifts or characteristics of any mark. Until within a few years he has been a sickly youth, and the nature of his illness was such as in common life would discourage parents with marriageable daughters, since it was of the sort known as "nervous," and required the attention of specialists in mental troubles, who had previously been called in for his mother in similar circumstances. In 1891, however, he made a tour of the world, and had the luck in Japan to be attacked by a crazy native and receive some rather savage sword wounds. Possibly, as sometimes happens, the shock of this experience may have steadied instead of further unbalancing his nerves. At any rate he has since been a much stronger man.

TWO FUTURE EMPERORS.

Prince George, the only surviving son of the prince of Wales, whose portrait we present is a cousin of Princess Alixe and of Emperor William II. He is of a different type, though the faces bear some resemblance to each other. He also is the heir, after his father, to a throne as great as that of Russia, and the alliance knitted by the betrothal of the czarevitch may have important consequences on the relations between great nations. It is not very long since Great Britain and Russia were regarded as hereditary enemies, and a like relation, more pronounced, was still more recently believed to exist between Russia and Germany. But with a granddaughter of Queen Victoria and a cousin of the German William as czarina of Russia, the policy of that empire, resting finally, as it does, in the hands of the czar will not readily be hostile to his wife's family. Should this prove to be the result of the marriage, many millions of the people who care but little about it now may bless its celebration.

SENATOR PATTON.

The Man Who Will Serve Out the Stockbridge Term.

John Patton, Jr., of Grand Rapids, the newly-appointed senator from Michigan, has been active in Michigan politics, but has never cared for office, though it is conceded that he might have been mayor of Grand Rapids or representative in congress from this district had he so desired. His indifference to office, notwithstanding his willingness to do party work, has led to the belief that he was singularly unambitious. He does not conceal his pleasure that the governor should have chosen him to be senator, and it may be that he has been waiting all the time for a congenial station before accepting public responsibilities. Mr. Patton is a young man to go to the United States senate, as he is just short of 44 years old. But his education has been liberal, and even those who are not pleased at his appointment grant that his equipment is much better than the average of those who win seats in the upper house of congress. He is a native of Cowansville, Pa., and his father was twice a member of congress from that district. Mr. Patton prepared for Yale college at the Andover Academy, finishing at New Haven with the class of 1875. He then spent two years at the Columbia college law school, being graduated in 1877. He went directly to Grand Rapids and began the practice of law. He has probably taken more interest in study than in practice, and this fact led ex-Gov. Luce, when

JOHN PATTON, JR.

disappointed that he did not himself receive the appointment, to say of Mr. Patton, "He is a young lawyer without a client." But Mr. Patton's modest fortune enables him to live as he chooses.

"THE LONDON STONE."

One of the Interesting Sights of the English Capital.

Most travelers while in London pay a visit to "London Stone." This historic stone is oblong in shape, of a grayish color, and is imbedded in the slabs of the foundation of St. Swithin's church, which is situated right in the heart of the city. This stone was erected by the Romans half a century before the birth of the Savior as the central milestone of point of their possessions in Britain. From it all roads, divisions of property and distances throughout the province were measured. It has been recognized as the heart of England from which all its arteries flowed by every historian or antiquary known to English literature. A feeling has always existed among Englishmen about this stone which was not altogether superstition, that as all distances were reckoned from it so it was in a certain way the base of the stability of England.

AN INVENTIVE GENIUS.

Discovers a Labor Saving Device for Handling Wood.

A New York wood dealer, who handles many cargoes of cordwood annually, finding that the time consumed in unloading carts at the yard amounted to a considerable item of expense, has invented a cart by which this item is eliminated entirely. The cart has a horizontal platform hung low between a pair of wheels on a crank axle. The platform is held in place by a button shutting into a slot in the forward part of the frame of a cart. The driver backs up to the string piece on the wharf and his cart is loaded. Then he drives to the yard and when he is at the spot where it is desired to unload the wood he simply turns the button and releases the platform and the platform tips backward, and thus the cart unloads itself. The driver never stops at all—he just keeps right on to the wharf again. The operation is so extremely simple and so obviously economical that it is a delight to the eye of even the most casual observer.

FIRST pedestrian—Out walking for your health? Second pedestrian—Yes. I'm going for the doctor.

IT GIVES WARNING that there's trouble ahead—if you're getting thin. It shows that your blood is impoverished, and your organs deranged, so that whatever you eat fails to properly nourish you. And just as long as you remain in this condition, Consumption, Pneumonia, and other Scrofulous and dangerous diseases are likely to fasten upon you.

You should build yourself up with Dr. Pierce's Golden Medical Discovery. Purify and enrich the blood, rouse every organ into natural action, and build up healthy, wholesome, necessary flesh.

CARLISLE STILL UNDER A CLOUD.

Secretary Carlisle has not cleared his skirts. He has never been suspected of any kind of corruption in office but his testimony as to the sugar schedule left him in an unpleasant light.

According to his own story and the official records to which it relates, he recommended an adjustment of the matter that was decidedly in the interest of the sugar trust, and the schedule now pending practically conforms to the one that he prepared.

It is charged that the arrangement was made in consideration of a contribution of $500,000 by the sugar trust to the democratic campaign fund in 1892. Mr. Carlisle denies that he was influenced by any pledge or agreement of that sort. Granting this to be true, then what was it that inspired his action? It will not do for him to say that he was trying to carry out the promises made by his party to the people on the subject of the tariff, for he was in reality flatly antagonizing those promises. He can not even claim that he was following his personal opinion as previously expressed, for he has always been known as a free sugar man. In his annual report, discussing the revenue question, he did not suggest a duty on sugar, but impliedly favored the contrary policy. It remains for him to explain, therefore, how he came to repudiate his party's platform and his own record in a manner so peculiarly advantageous to the sugar trust. The theory of accident or concidence, with absence of intention, will not answer.

It is an open secret that the sugar trust, personally represented at Washington by President Havemeyer, desired such a sugar schedule as was adopted by the senate committee, and Secretary Carlisle cannot plead ignorance of that fact. He must have had some special reason for the active and effective part that he played in the construction of this particular portion of the tariff bill. What was that reason?

Objection is made to L. B. Caswell by the Recorder because he is said to be a dairy candidate. The Recorder doubtless takes the same view as the Madison Journal, which says: "The pure butter and uuadulterated cheese questions are important, but these are democratic times and the real issue is the bread question."

If there were not so many men of wealth who privately advocate a constitutional monarchy with a moneyed nobility for this country there would not be so many men who publicly advocate anarchy. Fortunately, neither of these undesirable classes is numerous enough to have their own way.

No need of anti-immigration laws. As long as the democratic party is in power workingmen can make more money in European factories than in American, and in Europe they will stay.

Don Dickinson has always been inclined toward Munchausenism, but he dived in when he said that Grover Cleveland was the best friend that silver ever had in the United States.

It would be rough on Oregon, but decidedly amusing to the rest of the country should Governor Pennoyer be sent to the senate.

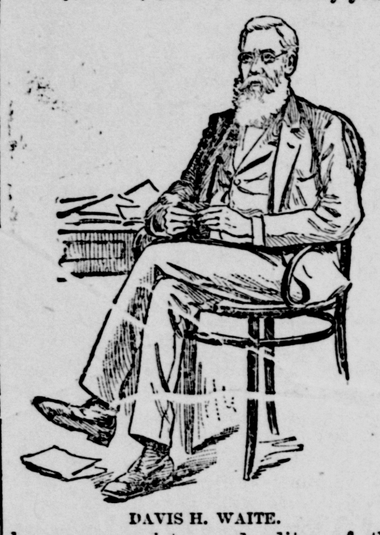

The pitiable condition of deluded men who followed Coxey and other demagogues to Washington—existing on bread and water—should be a warning to those still on the road to Washington.

It is hinted that Senator Gorman's illness will last as long as there is a chance of his being called as a witness by that senate investigating committee.

SOME WELL KNOWN FACES

Governor Waite.

In these days a good deal of interest centers about the personality and procedure of Davis H. Waite, governor of Colorado. He was born in Chautauqua county, N. Y., in 1835. For many years

DAVIS H. WAITE.

he was proprietor and editor of the Jamestown Daily Journal, and he was well advanced in life when he sold the paper and removed to Kansas. The mineral discoveries of the early eighties attracted his attention to Colorado, and he located at Aspen. In politics he was formerly a Republican, but since the inception of the Populist movement he has been one of its most vigorous supporters.

DIVED IN A STREET DRESS.

A Plucky California Girl Who Wouldn't Take a Dare.

Miss Josie Sheehy, a trim, natty young girl wearing a tailor-made gown and a jaunty bit of millinery on her head, was leaving the Olympic natatorium, in San Francisco, a few days ago, followed by the other members of the female class. Standing near the door were a number of young men waiting for the hour when they should be admitted, among them being Arthur Callan, an acquaintance of Miss Josie. Young Callan made a remark jocularly reflecting on the ability of girl swimmers in general and Miss Sheehy promptly retorted in kind. Repartee was exchanged laughingly for a few moments, and at last Miss Josie said, unguardedly:

"I wouldn't be afraid to jump in as I am."

"I dare you," said Callan, as Miss Sheehy hesitated. "I'll bet you $25 you dare not."

The bet was promptly accepted, and the whole party returned to the swimming school. Despite his offer, young Callan had some difficulty in putting up his part of the stakes; but the $50 was finally placed in the instructor's hands, and Miss Sheehy removed the pretty little hat, that being apparently the most highly prized part of her costume. One of the attendants swam out into the tank to be in readiness in case of emergency, but he might have saved himself the trouble.

SHE TOOK A HEADER.

The plucky young girl tripped lightly to the gallery, which is fifteen feet above the water, and posed herself for a moment. Then she brought the tips of her fingers together above her head. The next moment there was a swish of skirts as she dived, followed by a splash as the trim figure struck the water. The diver rose gracefully to the surface, and with a couple of long strokes reached the steps, up which she climbed laughingly to claim her $50. The money was turned over, and one of Miss Sheehy's friends was dispatched for dry clothing. Young Callan ignominiously fled, and at last accounts had not reappeared at the scene of his discomfiture.

When Professor Garner planned his expedition to Africa in search of the language of the great apes he hoped to take with him a curious letter of introduction to a savage negro chieftain. The letter was in the form of a phonograph message in the chief's own language from E. J. Glave, Stanley's young lieutenant. Glave commends Garner to the good offices of the savage warrior, and as Glave's voice is well known to the chieftain, the message would have doubtless been effective, but Garner by ill luck failed to receive the phonograph before leaving England.

The Earliest.

The Acta Diurna of ancient Rome is the earliest approach to the newspapers of which we have any authentic record. The Acta appeared daily until the downfall of the empire, A. D. 476. It was published under the auspices of the government and posted in some public place, the contents consisting of a digest of public dockets, a summary of daily occurrences, and all news of a general character.

Might Change Her Views.

"Emily," said the young author, tenderly, "what do you think of my new novel?"

"Reginald," responded Emily, with a voice of which every tone spoke eloquently as to her feelings, "Reginald, I have far too high a regard for you now ever to read any of your books."—Chicago Record.

Smashing Furniture Prices.

Now, hark ye, friends. During the past few months we have been loading up tremendously with Furniture, just because we could get it at about 60 cents on the dollar. The manufacturers had difficulty in getting money to go on with, prices kept dropping as money got tighter, and the result was that for every dollar of our good cash we bought nearly two dollars' worth of their good furniture. The time has come now to sell it, and we are doing it.

As we Bought, So We Will Sell.

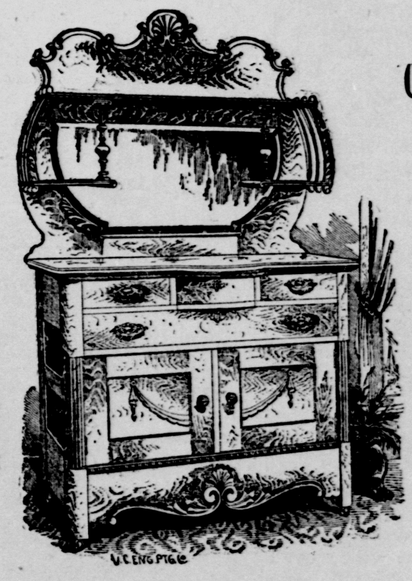

We don't want your money unless we can please you. The prices we are naming should sweep our stock to the four corners of the county in a week's time.

Remember We Carry a Full Line of Baby Carriages.

Get all others prices on baby carriages, squeeze them down to the lowest possible point, then come us and we will sell cheaper.

We use no partiality. Everything we have is for sale. We care not what price is named we can beat it.

"WILD MAN" CAUGHT ASLEEP IN A STACK.

SPAULDING'S LAKE APPARATION IS EXPLAINED.

William McCarty, with His Habit of Going About on His Hands and Knees Like a Wild Animal, Made No End of a Scare Among the Farmers.

WILLIAM MCCARTY, th wild man of Spauldings lake, was caught this morning by Officer Cochrane and placed in jail to await examinati n as to his sanity. McCarty has be n a terror to the farmers residing in the Spaulding lake neighborhood. He sleeps in straw stacks, steals blankets from the farmers, milks their cows and appropriates the lunch baskets of fishermen. When moving about in the woods and brush, he goes on his hands and knees, resembling a wild animal. He was found this morning asleep in a straw stack about half a mile from the lake and was arrested. He complains at times that he has a terrible pain in the head. The authorities will have him examined as to his sanity.

"BUNKOED" L. CLINE OUT OF $324 CASH.

PAIR OF ENCYCLOPEDIA SWINDLERS CATCH A FARMER.

He Was to Get a Set of Books Free—Instead He Finds His Set Will Cost Him More Than Ten Head of Fat Cattle—Would Like to Punch a Swindler.

A couple of swindlers, who are evidently old timers have been plying their trade in southern Rock county and along the Walworth line. They made a hanl at the farm of L. Cline, who lives north of Sharon. It appears that during the first week in May, one of these same swindlers, in guise of a farmer, came to Mr. Cline's farm about dinner time, with his outfit consisting of a pair of hard worked horses and a well worn buggy and asked if he couldn't get dinner and feed his team. He was told that if he could partake of the same fare as the family he might stay and have dinner, which proposition he promptly accepted, stating that he was used to farmer's fare, being a farmer himself, and resided six miles northeast of Marengo, Ill. After dinner was over the sharper unfolded his scheme to Mr. Cline and proceeded to entrap him with a very tempting bait. He had an encyclopedia for which he expected to get a large number of orders in this county and offered to send Mr. Cline one free of charge if he would help him to get orders by showing it to his neighbors and others whom he could perhaps induce to buy one, but it would be necessary for Mr. Cline to sign his name to a card so that the book could be sent to him, to which Mr. C. acceded and signed his name to the bottom of the card, and the sleek stranger departed. Mr. Cline got no book.

Demanded a Note For $324.

Last Thursday two strangers appeared at Mr. Cline's, and in the latter's opinion, one of them is the same fellow who called on him during the early part of May, but being disguised, as was also his confederate, it was difficult to tell whether it was or not. The two strangers told Mr. Cline the object of their visit, and showed him an order for thirty-six encyclopedias which was signed by him, and demanded immediate settlement. The fellow who made the first visit seemed to be spokesman for the party and also claimed to be a lawyer, and that his name was G. Williams, of Springfield, Ill., while the other fellow drew up the note of $324 for Mr. Cline to sign, which was to pay for the books, so he was told. The whole transaction is not clear to Mr. Cline as he says he seemed powerless and apparently had no control over himself at all, and believes that he and his family had been drugged, as all experienced the same peculiar feeling as himself, and did not get over it for several days after. All this time seems like a dream to him and he hardly knows how it was done. He proposes to make a strong protest against paying the note.

Wants to Punch a Swindler.

After they had procured his signature they went to Sharon and proceeded to Mr. Moon's livery stable where they ordered a team and carriage to take them to Harvard, but on being told that the horses would have to be fed first they went to DuBois' livery where the procured a rig which they claimed they would use but two hours, and with which they started for Harvard, where they put the horses in the stable and ordered them fed, and leaving pay for the use of it, telegraphed Mr. DuBois the facts and for him to come and get his outfit.

Mr. Cline is not a rich man, but merely in fair circumstances and cannot afford to lose the large sum, and has sought legal advice in the matter. He is not submissive in the presence of his loss but prints an agreement to give $25 to the man who called on him with the first proposition if he will put his foot on his farm.

Funeral of Arthur McCafferty.

The remains of little Arthur McCafferty, son of Conductor and Mrs. James McCafferty, arrived from Woodstock at 12:20 this afternoon. The funeral party was met at the depot by a number of Janesville friends, when the remains were taken direct to the cemetery for burial. Nearly thirty friends of Mr. and Mrs. McCafferty came from Woodstock with them. Frank Joyce, James Joyce, Thomas Leahey and Eddie Leahey were the pall bearers.

SET OF BOOKS FOR THE JUDGE.

Circuit Court Jurors Remember Judge Bennett In Kindly Fashion.

All jurors not on the Ferris-Berlin panel in the circuit court were discharged this morning. Attorney M. G. Jeffris, representing the jurors, addressed the court, and in a brief and feeling speech presented Judge Bennett with a handsome set of Browning's works, as a token of esteem from the jurors. The judge made a brief reply, accepting the gift, assuring the jurors of his kindly feelings toward all.

Last evening the Ferris jury was taken down to the Janesville Machine Company's plant, and the lathe upon which Ferris was at work when he received his injuries was inspected, the plaintiff explaining how the accident occurred. The lathe had been purchased from the Berlin works since the accident and removed to this city.

Schoof—Thiele.

There was a happy wedding party in St. John's church last evening to witness the ceremony that united Miss Meta Thiele to John Schoof. Rev. George Kaemplein performed the ceremony at half past 7 o'clock and after a few moments of congratulations all turned to the home of Mr. and Mrs. C. H. Kueck at 109 Caroline street, where a reception was tendered the happy couple. Congratulations were freely extended, an elegant supper was served and the bride received many gifts. Mr. and Mrs. Kueck are uncle and aunt of the bride, while the groom has been associated with Mr. Kueck for eight years in the meat business.

Cox—Joyce.

Frank Cox and Miss Maggie Joyce were married in St. Joseph's church, Edgerton, Wednesday morning, Rev. Father Bowe officiating. Miss Anna Joyce, sister of the bride acted as bridesmaid, and Frank Cunningham of this city as groomsman. The groom is the son of of Ex-Alderman William Cox of this city, but of late years has made his home in Chicago. The bride also has many relatives and friends in the Bower City. Mr. and Mrs. Cox will make their home in Chicago.

Johnson-Cassoday.

The wedding of Miss Bertha Cassody to Carl Johnson will take place in Madison this evening. W. A. Jackson and Frank H. Jackman will b among the ushers and Miss Etta Hanchett will also be present from this city. Janesville was formerly the bride's home, she being the daughter of Judge and Mrs. J. B. Cassoday.

Tarrant—Eddy.

The marriage of Miss Cora L. Eddy to William M. Tarrant occurred at the home of the bride in Shopiere on June 5, Rev. R. K. Manaton, of Shopiere, officiating.

BOY HAS A BATTLE WITH A MAD HORSE.

ANIMAL MADE FURIOUS BY BEING TEASED.

He Furiously Attacks Little Johnny Wear of the Town of Magnolia, and Tramples Him Into Unconsciousness—Doctor Finds the Boy's Thigh Painfully Injured.

Harry Wear, a ten-year-old lad, whose parents live in the town of Magnolia, had a terrible experience with a vicious horse yesterday, and but for the timely arrival of aid would undoubtedly have been killed by the maddened beast. The child was playing in a meadow when he was suddenly charged on by the horse apparently without cause. He ran for a ditch to escape, but the animal caught him when he had almost reached the bank, and knocked him down.

Then the horse tried to trample the lad to death with its fore feet but the terrific blow received by Harry as he fell, threw his body down the sloping bank of the ditch, and the horse could not reach him.

The boy's cries for help were fortunately heard by two men who were passing, and with sticks they succeeded in driving the horse away from the child, who had lost consciousness from pain and fright.

The boy was taken to a neighbor's house. His right thigh was found to be badly hurt, but he had fortunately escaped serious injury.

It is said that the horse has been much teased by boys who play in the meadows, and now gives chase to any who appear.

O'ROURKE IN JAIL ONCE MORE.

Louis Couldn't Keep Out of Trouble Even Twelve Brief Hours.

Louis O'Rourke did not enjoy his freedom many hours yesterday after being released by the circuit court. He immediately filled up on poor whiskey and became disorderly. Getting into a fight on High street he was arrested, but made a temporary escape from Officer Kruse by slipping out of his coat while the officer held the garment by the collar. O'Rourke was corralled in a freight car by Chief Acheson a few moments later and taken to jail. This morning he was in the municipal court, confronted with a charge of "drunk and disorderly conduct." He was adjudged guilty and sent down for four days.

ALDERMEN IN A $1500 CARRIAGE.

Valuable Rig To Be Used by Third Ward City Fathers.

Aldermen Winslow and Rich propose putting on metropolitan airs hereafter on public occasions, and the trappings are being put in shape for use. The carriage is owned by Chicago parties, that is, Chicago parties hold a claim of $1,500 against the vehicle, that being a portion of the original cost. The Third ward aldermen say that they will use the vehicle for the first time on July 4, appearing in the parade, Marshal Baldwin having promised to assign them a prominent place in one of the divisions.

Land for Sale.

Twenty-two-hundred acres of good and low-priced land for sale in northeastern South Dakota. This land is located in Duell county, 25 miles south-east of Watertown, only six miles from the Minnesota line and six miles from Clear Lake, the county seat, in the town of Norden, on the Burlington, Cedar Rapids & Northern R. R. One section lies within a quarter of a mile of Brandt station and all of section 9, 15, 17, and south half of 7 within two miles. North half of section 7 sold for $12 per acre last year. This land is as good as any in Rock Prairie and lays to the county seat as Rock Prairie does to Janesville. There is running water on two sections and good well water within fifty feet of the surface. The country is well settled. Two school houses are on the land.

Price from $10 to $15 per acre.

FOR FOOT AND HEAD.

Judic Chollet's Seasonable Suggestions For Their Adornment This Summer.

Tan and yellow shoes are out of favor with Frenchwomen, chocolate shades being preferred. In America colored outdoor shoes are worn mainly for coolness, however, and brown cannot be really much less warm than black. White canvas shoes with white goat or black patent leather trimmings are extremely attractive for out of town use, and if they did

NEW COIFFURE.

not so quickly become soiled would be worn more than they are. The Juliet shoe for the street is merely a revival of the old fashioned congress gaiter with elastic in the sides that went out of style for women years ago, although it remained in use for men. It was predicted that side lace boots would also reappear, but none have been seen as yet. Button boots are first favorites, but the Blucher cut laced style is likewise much worn, especially in tan shades. Low, flat heels are decidedly the fashion, but the toe ranges impartially from pointed to common sense shapes. Patent leather retains its popularity, although, as it is not elastic, the foot takes a wider shoe in this material than in kid.

A woman with a large foot cannot do better than confine herself to plain fine French kid boots, as they fit perfectly and comfortably, and having a dull finish are inconspicuous. For evening wear she should select black suede or satin shoes without rosettes or buckles.

Now for the other extremity. The flat plastered locks of 1830 fashion have not come in, nor are they likely to do so. We are too well accustomed to the softening effect of wavy, fluffy arrangements of the hair to look with favor on the revival of so trying a style. The hair is often parted and arranged in curls at the sides of the face, but not with the painful smoothness and regularity that characterized the days of our grandmothers. A sketch is given of a simple coiffure in which the hair is waved all over the head, then parted in the middle and drawn loosely to the back, where it is coiled in a figure 8, which is secured by an ornamental pin.

TO CATCH A BUYER'S EYE.

Schemes of Shrewd Manufacturers That Make Their Toilet Articles Sell.

What an excellent thing it is, from a merely business point of view, to understand something about human nature! It is easier and more profitable to cater to the fancy than to win the favor of sober judgment, and shrewd manufacturers guide themselves accordingly. For instance, can there be any doubt that the enticing form in which they are put up sells half the cosmetics that are now on the market? One maker sends out his paste or pomade, or whatever it is, in tiny yel-

LAVENDER CREPON GOWN.

low and brown earthen pots, with two handles and a cover, and there is no way of getting these enchanting pots except by buying the cosmetic. Another adopts an irresistible triangular bottle as a vehicle for his wares, and to see this bottle is to desire it so intensely that it is bought at once, necessarily with its contents. A certain make of nail powder is put up in little diamond shaped boxes, and it sells not because the powder is so good, but because the boxes are so odd.

It is not cosmetic makers alone either who know the value of a taking outside to their goods. Cherries preserved in a bulbous glass jar, with a bale, command a higher price than the same fruit in an ordinary screw can. German mustard in curious crockery jugs, with cars, is more attractive to the customer than German mustard in bottles. Chianti is much improved by being bottled in flasks netted with twisted straw, and how much of the bewitchment of champagne depends upon the silver foil and the cork! Probably if it were served to us from a delf pitcher it would be no more alluring than sparkling cider.

Again, French dealers have a peculiar knack for putting up dress patterns in boxes that renders the material doubly attractive. A band of trimming tastefully folded across the face of the goods, some paper lace and fastenings of taffeta ribbon make up so pleasing a whole that it is bought out of hand. Our own dry goods dealers line the articles of muslin underwear that they display with pink and blue tissue paper, thereby securing purchasers who would not have thought of buying if the artful fashion of the garments' exposure had not caught their fancy.

Therefore, as the eye so craves indulgence, we will offer it a suggestion for a costume of lavender crepon. The skirt and the sleeve puffs are accordion plaited. The gathered bodice has a shirred plastron of white mousseline de laine back and front, with bretelles of white guipure.

JUDIC CHOLLET.

If in doubt as to what material to buy for your best gown, get crepon. It and grenadine will be favorite materials of the season, at all events with those who cannot afford silk and chiffon.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than $16 to $30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

Croup and Diphtheria.

Bacteriologist Herman M. Biggs of New York has made a report to the board of health of the results of his investigation into 268 cases of so-called "membraneous croup." He says that his observations justify the conclusion that the disease is nothing more or less than laryngeal diphtheria. He recommends that the membraneous croup should be put on the list of contagious diseases, concerning which reports from physicians to the health board are required. It is said that the recommendation will be adopted.

A Doll's House.

Perhaps the finest doll's home in England is that ordered by the duchess of Portland for her little daughter, Lady Victoria Bentinck. The reception rooms are hung with broeade, the stairs carpeted, the doors open and shut and the bedrooms are beautifully furnished. For a little New York heiress a doll's house has lately been constructed which cost several thousands of pounds.

Ape European Ways.

Central Asian potentates are growing very European in their ways. Since the Emir of Bokhara visited St. Petersburg he has quite adopted western habits, throwing open his palace to Russian ladies and giving regular balls. After European comforts he finds his palace very bare, so he has invited a French architect to build another in European style.

A London Fad.

The latest fad in men's dress is to have the skirts of the long coats lined with silk that rustles. In some instances fashionable tailors are putting a certain kind of material between the silk and the cloth to supply the "swish" when the silk doesn't sufficiently rustle.

Superannuated Warships.

Five warships were sold out of the service by the British admiralty two weeks ago, being unfit for further employment. One was a wooden battle ship built sixty years ago. Three of the others were also wooden ships, and one was an iron troop ship.

World's Death Rate.

It is computed that the death rate of the world is sixty-seven a minute and the birth rate seventy a minute, and this seemingly light percentage of gains is sufficient to give a net increase of population each year of almost 1,200,000 souls.

Paints on the sky by the setting sun is beautiful. Not so the sallow saffron of a face tinged with bile. And oh! the unspeakable discomfort that bile in the wrong place produces. Twinges in the right side and under the right shoulder blade, nausea, vertigo, sick headache, constipation, faulty digestion. Not in an instant can the symptoms of biliousness be dispelled, but persistence in the use of Hostetter's Stomach Bitters will eradicate them, restore digestion and regularity of the bowels, and counteracts tendencies to more aggravated complaints, which an interruption of these functions begets. Rheumatism, inactivity of the kidneys and bladder, neuralgia, and inability to sleep, are also remedied by the genial preventative and restorative of nerve force and tranquility. As an antidote to the poison of malaria, it is unfailing and prompt. A wineglassful three times a day.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord, near the base of the brain, and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

DR. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headache, dizziness, dullness, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle.

DR. MILES' RESTORATIVE NERVINE is sold by all druggists on a positive guarantee, or sent direct by DR. MILES MEDICAL CO., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It contains neither opiates nor dangerous drugs.

TOO MUCH WIND

Is being wasted by our competitors, who lead in everything (Fairy tales not excepted) as to the immense amount of business that they are doing—on paper mostly—by selling their wares less than cost. Merchandise that must be sold for less than the cost to manufacture must be exceeding poor or of such an antique date that any price is gain. We do not have that kind of goods in our place. We are making up many suits—busy all of the time and making some profit—the reason is that our customers get honest value for their money—any who have ever dealt with us can verify the above.

A FAMOUS RESORT

Hot Springs, Garland county, Arkansas, has been a resort for invalids since the first cabin was built there in 1809. Legend identifies these springs with the "Fountain of Youth" of Ponce de Leon. The town and springs are on a reserve of four sections, set aside by congress in 1832.

There are 71 springs in number with a total discharge of 335 gallons per minute. The well known efficacy of the water in the treatment of chronic cases of the skin, joints, and mucous membranes is due without doubt to their temperature and not to their mineral constituents. The waters are no doubt beneficial in the cases of neuralgia and rheumatism, but the great remedy, Sanspareil, sold in Janesville, by all druggists, is guaranteed to produce more favorable results. *Don't experiment with inferior remedies.* Try Sansparil for rheumatism, neuralgia, headache, tumors, wens, goitre, sprains, sore throat, inflammation of the bowels, etc.

That Shaw

Will become the property of some popular young lady within the next four weeks. We do not dare to predict who will get it, but a "dark horse" is talked of and the ballots will come in with a rush within the next three weeks, therefore those interested want to redouble their energies so that their particular favorite will not be behind in this popular contest.

A Word About the Shaw Piano

The first pianos made by the company were placed on the market less than five years ago. Instantly the trade recognized their merits and put in bids for territory until at this time these instruments can be seen almost everywhere. To be able to build such a good business in so short a time there must be great policy behind the house. The policy of the Shaw Piano Company, is first to build a good instrument, second, to advertise it largely and artistically. The first part of the policy, to build a good instrument, is amply testified to by the favor they have met with both from dealer and artist. The Shaw Piano is strictly a high grade first-class instrument, one that the purchasing public can have every confidence in. Messrs. S. C. Burnham & Co., of our city have for years been representing other first-class pianos but have been won by the construction, tone and quality of this new aspirant for honors so that today they are bending all their energies in favor of the Matchless Shaw, as it is termed. With no remorse of conscience they claim it is the finest musical instrument in the piano line they have ever represented.

Judgiug from the above account of this wonderful piano is it any wonder that the contest now going on is attracting universal attention. Rally round your favorite lady, boys. See that she becomes the happy possessor of a SHAW.

Catarrh AND COLD IN THE HEAD relieved instantly by one application of Birney's Catarrh Powder

REV. FATHER CLARKE, Sec'y to the Rt. Rev. Bishop of Columbus, Ohio, writes;

GENTLEMEN:—I cannot say enough for your Powder. It has cured me of an aggravated attack of catarrh when nothing else could help me. Am delighted with it. All my friends to whom I administered samples are quite enthusiastic over it. The good sisters speak most encouragingly of their use of it in the Hospital under their care. I will do anything to speak a good word for the remedy to help others who are suffering.

M. E. FERGUSON, Custodian U. S. Appraiser's Stores, Chicago, writes:

GENTLEMEN:—Being almost entirely deaf for a number of years past and getting no relief from many so-called cures which I tried, was induced by a friend to try Dr. Birney's Catarrhal Powder for my deafness. Have recovered my hearing entirely, so that I can now hear a watch tick plainly, it being held 18 inches from my ear. I look upon it as a positive cure for deafness and have recommended its use to many of my friends and can say I have never heard of a case where it has failed to relieve.

LAYING A SEA CARLE AN ARDUOUS TASK.

ANOTHER ELECTRIC CONNECTION WITH EUROPE.

It Will Make Twelve Cables in All, Joining the Two Continents—The Work Is Easy Now—The Faraday at Work on the Ends.

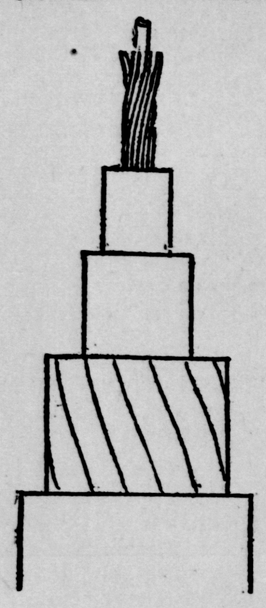

TWO MORE CABLES are being laid across the Atlantic. There are at present ten cables connecting the Old with the New World, but so rapidly has the cable business grown that they are inadequate to handle it all. It was on August 16, 1858, that the first message was sent under the Atlantic, but the cable broke down twenty-three days afterward, and communication was not resumed until July, 1866, since which time it has been uninterrupted. The original charge for a message, while there was only one cable in existence, was $5 per word, but the laying of new cables with consequent competition, has brought the price down to 25 cents per word, and, as a result, the business has enormously increased. Now one of the cable companies is adding to its equipment by putting down two new cables, the shore ends of which are now being laid. No cables had been laid during the previous ten years, but experiment in the meantime has shown many improvements, and these have been incorporated in the new lines.

The cables have been made by Siemens Bros. & Co., whose factory at Woolwich, England, has been working night and day to complete the order, so that the cable may be laid during the summer. Altogether 2,201 nautical miles of cable have been made, and these consumed 495 tons of copper wire, 315 tons of gutta percha, 575 tons of jute yarn, 3,000 tons of steel wire and 1,075 tons of compound and tar, making a total weight of 5,460 tons. The order for the cable was given Nov. 21 of last year, and rapid work was begun at once.

The cable is largely made by machinery, and the twisting of the wire and covering with tar and gutta percha are done by automatic apparatus. The deep-sea portion of the cable, which is the smallest part of it in size but the longest in length, was manufactured at the rate of five nautical miles per day by one machine, and there being ten machines of this kind at work there were fifty-five miles of deep-sea cable turned out every twenty-four hours. The shore ends of the cable, however, required much more time to manufacture. It is necessary that these should be very large and strong. As long as the cable lies along the bed of the ocean it is out of harm's way. No storms, however violent, can reach it. It is not affected by any change of the temperature, and it is too deep to be molested by fish or any kind of marine creature.

It is therefore only necessary in the deep-sea portion of the cable that the little copper wires in the "core," which convey the message, be thoroughly insulated and kept dry. This is accomplished by their being covered with a coating of jute and guttapercha, over which is a sheathing of small steel wires. This sheathing increases in strength and protective power as the shallow water is approached, and there are seven different sizes in the new cables. The "core" containing the copper wires along which the messages are sent is carried through all sizes unchanged. The heaviest part of the cable is that which is near the shore, where the motion of the waves may wash it to and fro among the rocks and stones, that would otherwise soon cut it. Along the banks of Newfoundland

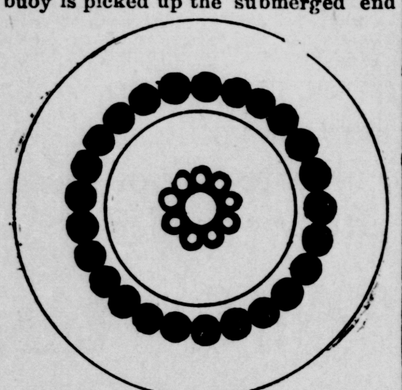

OCEAN CABLE, SHOWING SEVERAL PARTS

fishing schooners anchor and occasionally pick up the cable, and that contingency has to be provided for in weight and strength.

From the time the cable is finished until it is paid out over the stern of the cable-laying steamer Faraday, it is never allowed to dry. It is kept in large tanks of water and transferred to such tanks aboard the Faraday, where it is coiled up. When the shore end is all paid out it will be buoyed, and the Faraday, coming back some weeks or a month later, will look around for the buoy in order to pick up the cable again.

Thus passengers across the Atlantic may see a buoy away out in the ocean, but mariners will be warned to let it alone, as it marks the end of one of the sections of the new cable. The Faraday can lay the deep sea portion of the cable at the rate of seven nautical miles per hour, proceeding under almost a full head of steam. The cable is simply paid out from the stern like a rope. Occasionally, however, the steamer will stop and pay out a lot of cable before proceeding. This is done where she comes to a cliff or sudden fall in the bottom of the ocean, which is not level, as some people imagine, but has all the topographical features of dry land.

The Faraday is provided with maps of the bottom of the ocean as accurate as if made by submarine surveyors. At all points it is sought to have the cable actually resting on the bottom and not stretching from hill to hill. While the Faraday is laying the cables electricians on board are constantly keeping up communication with the shore, so as to see that it is in good running order, and while in the middle of the Atlantic the officers of the ship may learn the latest news. When a buoy is picked up the submerged end

DEEP SEA CABLE.

of the cable is slowly hauled aboard and carefully spliced to the other section.

Childhood Sayings of an Empress.

The Empress Frederick must have been a deliciously naughty child, if all the stories told of her juvenile days are true. Everybody knows the "Goodnight, Brown," story, but here are a few others not quite so familiar: Walking one day in Windsor forest with her daily governess, the princess, then 3 years old, showed a good deal of rather naughty temper. "Look," said the governess "at that very nice little girl over there. How good she is! How quiet!" "I dare say she may be," retorted the little princess, "but then I also see she has no daily governess!" "Shall we meet every one in heaven?" she asked another time. "O, yes, my dear," was the reply. "Surely," thoughtfully remarked the child, "not Dr. A.?" Dr. A., it should be told, was an extremely plain old man. When the prince of Wales was born the good news was conveyed to her small highness. "Are you not pleased with your little brother?" she was asked some time later. "O, no!" was the reply. "I would so much rather have had a pony!"

Seasonable Fruit.

Bananas are about the cheapest and most seasonable fruit now in the market and the skill of the economical housekeeper is best evinced by making use of the articles that cost the least. It is not uncommon to see bunches of twenty bananas offered for 25 cents, and at this price there can scarcely be a more economical material for a dessert. A shortcake made like ordinary biscuit dough, rolled thin and baked in two layers, with bits of butter between, may be pulled apart when done, buttered and spread thickly with sliced bananas; sprinkle with powdered sugar, put on the other half and send to the table at once with whipped or sweetened cream. Indeed, it is quite good enough without either, as cream hardly places it among cheap desserts. A cheap layer cake, cut in rounds with a cake cutter, with sweetened and sliced bananas laid between and dusted with powdered sugar, makes nice little individual shortcakes.

A banana cake is a nice change. Make a good layer cake, with half a pound of butter, one each of flour and sugar, four eggs and half a cup of milk; bake in eight thin layers; spread sliced bananas between, coating each layer with powdered sugar or a very thin, creamy icing.

To Whiten the Teeth.

A homely set of teeth will spoil the prettiest mouth ever fashioned after Cupid's bowstring. On the other hand, a commonplace face becomes positively attractive when the lips open and disclose two rows of clean, well-kept ivories. They need not be like dentrifice advertisements, and the "pearls" of the old-fashioned heroine are in this practical age but lightly esteemed. But there must be about the well-groomed mouth a wholesome, cleanly look. Precipitated chalk will keep the teeth in fine condition. Have a box of it always on your toilet stand and see what it will do toward freshening up a dingy mouthful of teeth.

Aluminum in Lithography.

The latest application of aluminum is to lithography. The stone used for lithographing is found in Bavaria, and as the supply is diminishing its cost is increasing. Moreover, it is very brittle, and, being rigid, can only be used on flat surfaces. We read that, under a recently patented process, aluminum plates, weighing from two pounds to ten pounds, and costing from 20 shillings to 40 shillings, do the work equally well, and that, being flexible, they can be molded into forms for cylinder presses. It is also reported that aluminum plates are taking the place of steel for engraving purposes.

REVIVED JUST IN TIME.

An Alabama Doctor's Narrow Escape From Being Buried Alive.

From Thomasville a thriving little town on the Mobile and Birmingham road, 102 miles north of this place, says the Mobile Register, comes a story that is heard but seldom, and then too much credence cannot be placed therein, for nine times out of ten there is a certain prevarication or a knack of distorting and stretching the facts that knocks the truth out of the tale. But here is a true story: One Sunday morning there died, to all appearances, at Thomasville, a well-known physician of that place—Dr. John W. Brand. He had lately removed from Randolph county, and was about 65 years of age. He suffered several weeks from various complications, and finally the watchers at his bedside, one of whom was his son, saw him draw, apparently, his last breath, and sink into the unconsciousness of death. The body was taken charge of by his friends, washed and dressed in the customary shroud, and laid out in the parlor. An hour or two later the few friends seated in the room with the corpse noticed a slight twitching of the fingers of the deceased. They were somewhat startled, but did not lose their self-possession and flee from the room, as is ordinary under such circumstances. Instead they repaired to the side of the doctor and watched him closely. Then a movement of almost the entire body was noticed—a slight convulsion, in fact. Then two pieces of money that had been placed over the eyes of the dead man fell off and he made an effort to open his eyes. This satisfied those around him that life was still within the remains and the body was tenderly carried back to the bed from which he had been removed a short while before, a supposed corpse. Dr. Brand received every care and slowly revived. His first words, when apprised of his condition, were:

"How long was I dead?"

All preparations for the removal of the body to his home in Randolph coutny had been made by the son of Dr. Brand, and it was arranged to ship the remains by the Mobile and Birmingham train that passed Thomasville Sunday night. Dr. Brand's daughter was at the Salem depot to receive the body of her father, but instead was rejoiced to receive the welcome news that her parent was still alive.

One Mine Near Pittsburg to Run Under Guard—Can Not Agree.

PITTSBURG, Pa., June 7.—Seventy deputy sheriffs, chosen on account of their military training and armed with rifles, have left for the mines of the Youghiogheny Gas Coal company, near Monongahela City, where the first attempt of the coal operators to break the strike will be made this morning. Miners have been thrown into excitement by the arrival of imported men and deputies. The operators on the Youghiogheny and Greensburg will also make an attempt to operate their mines within the next forty-eight hours with imported men.

A meeting of operators was held at the Monongahela house yesterday. An agreement was drawn up in favor of the 69-cent rate and all present were asked to sign it. Another meeting of the operators who will attempt to break the strike was also held and plans perfected.

Coal Famine at Fairbury, Ill.

FAIRBURY, Ill., June 7.—A total famine in this section is now at its height and will remain so as long as the miners refrain from working. All the tile factories have been compelled to suspend for want of fuel and the number of families completely out of coal is growing larger every day. The Wabash railroad is only running those trains which they are bound to run and these engines are fired with slack, which heretofore was used for ballasting. The road not being able to run their full schedule of trains the list of employes has been reduced to all branches.

Wheat.

Growing wheat is a vegetable that is not readily affected by a nipping frost. In fact, it is a hardy plant, and thrives when the temperature is several degrees below the freezing point. When only three or four inches high a snow and the mercury fifteen degrees or thereabouts above zero for a day or two does not kill it. When the stem has reached six or more inches and becomes jointed it is more susceptible to the cold, and a blizzard is likely to work damage, but even then only in patches.

Acquitted of Killing a Negro.

BIRMINGHAM, Ala., June 7.—Carter Jones, a brother of Thomas G. Jones, has been acquitted in the Criminal court of the murder of Dave Jackson, colored. Jones is a Louisville & Nashville engineer and Jackson was his fireman.

Many Killed in Battle.

RIO JANEIRO, June 7.—Federal forces under Gen. Pina have taken Cangarsa, Rio Grande, routing the government troops in a fight which lasted forty-eight hours and in which many were killed. The wounded were carried away.
